Professional Summary

Motivated Computer Engineering student with strong knowledge of Java, Spring Boot, Data Structures, and Backend Development. Experienced in building REST APIs and responsive web applications. Seeking entry-level Software Developer or Java Developer role.

Technical Skills

Languages: Java, Python, C, C++
Web: HTML, CSS, JavaScript
Frameworks: Spring Boot, REST APIs
Database: MySQL, MongoDB
Tools: Git, GitHub, Postman, Android Studio
Concepts: OOP, Data Structures, Algorithms, System Design

Projects

Employee Management System — Java, Spring Boot, MySQL – Developed CRUD REST APIs for employee management – Implemented layered architecture and MySQL database – Improved backend performance and scalability	GitHub
AI Crop Disease Monitoring System — Python, AI – Built image-based crop disease detection system – Improved early disease identification for farmers	GitHub
Rubab E-Commerce System — HTML, CSS, JavaScript – Developed responsive e-commerce UI – Designed product listing and navigation system	GitHub

Experience

Software Development Trainee — Techno Wings – Worked on Python and Android development – Learned real-time development workflow	Jul2023 – Aug2023
Java Trainee — Anudip Foundation – Trained in Core Java and Spring Framework	Jul2025 – Aug2025

Education

Dr. D. Y. Patil Technical Campus, Varale – B.E. Computer Engineering	2024 – 2027 CGPA: 8.45
SVERI's College of Polytechnic, Pandharpur – Diploma in Information Technology	2021 – 2024 83.31%

Achievements and Activities

Java Programming — Anudip Foundation
Inplant Training — Techno Wings
National Level Hack Spirit — SVERIES COE
